

Teaching Support Centre / Centre d'appui à l'enseignement

Presented to

**Kyle Douglass**

in recognition of having completed the

## Teaching Toolkit I Workshop

The 'Teaching Toolkit I' is a one-day workshop involving lectures and learning activities which aim to develop (a) skills for effective one-to-one teaching in university, (b) an understanding of how to most effectively organise exercise sessions, and (c) an understanding of how to respond to typical challenging teaching situations. A central focus of the workshop is on practicing key skills, getting feedback, and identifying how these skills could be applied to, and practiced, in the participant's own teaching.
